

The new CNet CWR-635M 3.G router is a multi-function, feature rich wireless AP/router with the capability to connect to third generation cellular networks. This new router comes with an 802.11G access point connecting wireless workgroups, a built-in NAT router with SPI firewall to allow sharing of broadband connections. CWR-635M offers Internet access through the RJ45 10/100Mbps WAN port connecting to DSL/Cable modems as well as a USB2.0 port capable of connecting to HSDPA/UMTS modems from mobile network providers. Utilizing this router, mobile subscribers will have Internet access on-the-go adding to their productivity and efficiency.

KEY FEATURES

- Multi-function with AP/Router/Client operating modes
- 802.11G wireless access point
- NAT Router with SPI and DoS firewall
- HSDPA/UMTS/W-CDMA Mobile Internet access (3.5G networks)
- WebCam, Print and FTP server support
- Compact and easy to use

SPECIFICATIONS

Model	CWR-635M
Standards	Mobile: HSDPA/UMTS/W-CDMA Wireless: IEEE 802.11b/g LAN: 802.3, IEEE 802.3u
Data Rate	Mobile: 3.5G up to 3.6 Mbps (backward compatible with 2.5G/2.75G) Wireless: 802.11g up to 54Mbps LAN: Up to 100Mbps
Interfaces	1x WAN 10/100 BaseT with RJ-45 connector 1x LAN 10/100 BaseT with RJ-45 connector 2x USB2.0
Wireless Frequency	2.412 ~ 2.484GHz
Antenna	Built-in
Operational Modes	AP, Router, Client
LED Indicators	WLAN, LAN, WAN, Status, Power
Power	100 ~240 VAC
Wireless security	WEP, WPA, WPA-PSK, 802.1x
Firewall	URL, IP, MAC Filter, SPI, DoS
Reset Button	Reset to factory default
Network protocols	DHCP, Static IP, PPTP, PPoE, UPnP, DDNS, DNS, NAT, QoS (3 level priority)
Management	Easy Setup utility (windows operating systems), Web browser
Environment	Operating Temperature: 0° ~ 45°C (32° ~ 113°F) Storage Temperature: -20° ~ 60°C (-4° ~ 160°F) Humidity: 5% ~ 95% Non-condensing
Certifications	CE, FCC, RoHS
Dimensions (L x W x H)	3.6 x 3.1 x 1.2 inches (91 x 78 x 31 mm)
