

## CDA-06 – 6dbi Directional Antenna

[www.cnetusa.com](http://www.cnetusa.com)

Our directional Range Extender CDA-06 Antenna enhances the wireless range of 802.11b/g wireless products. These Antennas can be used in any wireless network in conjunction with Wireless Broadband Routers and Access Points having SMA type connectors. The antenna increases the effective strength as well as the receive sensitivity of the outgoing signals. Using this antenna saves hardware investment costs and enhances the wireless network coverage area to about two times the current dipole antennas. CNet offers a Multi-mount solution for CDA-06 which includes weight mount, wall mount and magnetic mounting.

### KEY FEATURES

- Weight mounting, Wall mounting and Magnetic mounting
- Compliant with AP/Router/PCI Card with RP SMA Connector
- Extended wireless network coverage up to 400 ~ 450M \*
- Easy installation
- Save space and cabling cost

### SPECIFICATIONS

<b>Product Name</b>	6dBi Directional Antenna
<b>Model Name</b>	CDA-06
<b>Frequency Range</b>	2.4GHz ~ 2.5GHz
<b>Gain</b>	6dBi at 2.45GHz
<b>Storage Temp</b>	-20 ~ +80
<b>Operation Temp</b>	-10 ~ +60
<b>Cable</b>	1M
<b>Impedance</b>	50Ω
<b>Polarization</b>	Linear Vertical
<b>Dimensions</b>	156 x 80 x 85 (mm)
<b>Connector</b>	RP SMA
<b>Radiation Pattern</b>	Directional

### ORDERING INFORMATION

Model	Description
CDA-06	6dBi Directional Antenna

\* The actual indoor range will be affected by real environment
